

I am highly concerned about the issues regarding LPFM being given a priority over FM translator service. I am an avid listener of K-Love radio which is a national radio service that would be effected by LPFM stations. K-Love serves my local community as well as all the communities which it is broadcast. It is the only radio station that provides contemporary Christian music, local Christian event schedules and positive and encouraging messages and information not available anywhere else. I know countless people like me, that listen to K-Love more than any other radio station.
